WHY WRITE WITH TEACHERS

The best writing teachers are writers.

ethicalela.com is a low stress,
supportive space for writing
throughout the year to nurture
your own writing life.

To discover methods & resources to support your school's writers.

Teachers from across the
country host each month,
offering writing ideas and
mentor texts to share in your
classroom.

Writing heals.

Teachers are human beings,
and writing is an act of
reflection, healing, and making
sense of our place in the world.

Professional Development*

Successfully complete the 5-
day challenge by writing a
poem and 3 comments each
day and completing a survey.
The OSU Writing Project will
mail you a certificate.
